IGROW Stephenson County [www.igrowsc.org](http://www.igrowsc.org) is a web-based notification system designed by the Stephenson County Health Department's All Our Kids Network. The system helps busy parents learn about their child's development, can send reminders to make your child's well-baby visits and immunizations appointments, and shares information about local family related events and activities! By signing this release, you give permission for the IGROW administrators to send you messages using the media sources you selected below.

By registering for IGROW you will receive the following notifications:

- Well child visits
- Annual learning checkups
- Community events that my family can attend
- Ideas for activities I can do to help my child grow and prepare for kindergarten

Please share the following information to receive your notifications:
